

Description	Section	Total distance	Distance from last	Next Near Trail Water	Water Direction	Elevation	High point from last	Low point from last	Ascent from last	Descent from last	Distance off-trail
Resupply locations are bold text, water locations are blue text and water alerts greater than 10 miles between mapped sources are bold-red text. (Other "alerts" may exist depending upon conditions. Use of this information is solely at your own risk.) Trail Sections are numbered according to suggested resupplies, although other resupply options are shown as well. Resupply location services are standard data book abbreviations: PO = post office G = groceries M = meals or restaurants L = lodging
